

Call for participation: Security Research & Innovation Event 2016

On 1 & 2 June the Security Research & Innovation Event (SRIE 2016), powered by HSD, will be held at The World Forum. HSD will be putting on an action-packed programme consisting of workshops, debates, networking events and much more besides. And of course the SRIE2016 wouldn't be the same without the HSD Innovation Room.

Several organisations have already announced that they want to take part of the Innovation Room and side tracks to launch innovative new products, to give presentations, to host 'challenges' or to contribute in some other way.

Inspire & make your ideas known

We'd like to give everyone the opportunity to make their ideas known, and in doing so, to help us make the SRIE2016 a resounding success. We are looking for ideas that are as tangible as possibly by creating experiences and providing interesting interactions with the visitors. If you've got any ideas for our programming, then please let us know before 5 May by contacting our project leader, Mary-Jo de Leeuw:

Security Innovation Room

On Wednesday 1 June and Thursday 2 June thirty or so businesses, governments and knowledge institutions will be presenting their latest innovations. Interactive stands will be set up to demonstrate some of these innovations. If you want to be part of the Innovation Room, please consider the following criteria that have been imposed for exhibitors:

- 1) Companies and organisations must be operational in the field of:
 - Integrated Border Management
 - Cybercrime and Law Enforcement Technologies
 - Financial Investigations and Fraud
 - Terrorism and Radicalisation
 - Space and Security
 - Forensics
- 2) Exhibitors must present innovations in this same field, e.g. research, proposals or demonstrations.
- 3) These should preferably be something visual.

HSD will be selecting the participating exhibitors. Since we can only host 35 organisations in our Innovation Room, we urge you to respond quickly by contacting Mary-Jo!
